---

Experience

Zooniverse - Adler Planetarium / Software Developer
NOV 2015 - PRESENT, CHICAGO, IL

Lead developer efforts for complex projects. Oversaw design, development, and feedback with internal and external partners.

Built accessible and elaborate user interfaces utilizing industry best practices, multiple APIs, and machine learning. Integral in creation of new frontend monorepo, including SSR apps, CMS integration, translations/internationalization, and multiple internal libraries.

Maintained a large active legacy codebase, refactored to utilize modern JavaScript. Assisted with migration from AWS to Azure.

Facilitated high developer team velocity with prompt review, assistance, and documentation.

Marcum, LLP (*formerly FR&R*) / Manager
AUG 2005 - MAY 2015, DEERFIELD, IL

Managed large cross-discipline teams, effectively coordinating between departments and outside third parties.

Responsible for the annual accounting services of up to 50 organizations, individually annual revenue as high as $15M.

Education

Actualize / Full Stack Coding Bootcamp
2015, CHICAGO, IL

Learned Ruby on Rails, JavaScript, Angular, and PostgreSQL.

University of Illinois / Bachelors of Science, Accountancy
2005, URBANA-CHAMPAIGN, IL

Certified Public Accountant (inactive).

Accomplishments

Presented at the Library of Congress - Collections as Data conference.

Facilitated corporate volunteering events for hundreds of participants.
